PETITION
IN SUPPORT OF LEGISLATION
TO MANDATE DRUG TESTING FOR JUDGES AND LAW ENFORCEMENT OFFICERS

We, the undersigned citizens of Oregon, urge the state legislature to pass legislation that mandates drug testing for judges who can hear drug-related cases and for all law enforcement officers who are, or can be, involved with enforcement of drug prohibition laws. We believe that law enforcement is best done by police, troopers and judges who the public knows are not in any way involved with the illegal drugs which their job requires them to suppress as illegal and also exposes them to. We believe that an unknown, probably small but real percentage of law enforcement and the judges in the state may be involved illegally in the use or business of selling such drugs - and that even if none are, the wide belief that some are is itself something that warrants passage of legislation mandating drug testing for judges and law enforcement officers. Law enforcement can only be improved by such legislation, and the public's belief in and support for the law can only be strengthened by passage of such a state law.
